A diagram showing the addition of gold pieces for two items. On the left, a knight is shown. To his right, a dagger is in a box, with an arrow pointing to a row of 10 gold coins, each with the number '1' on it. Below this, a plus sign is followed by a horned helmet in a box, with an arrow pointing to a row of 6 gold coins, each with the number '1' on it. Below that is an equals sign. To the right of the equals sign is a long horizontal row of 16 gold coins, each with the number '1' on it. An arrow points from the end of this row to an empty square box.

A knight in armor holding a banner and a shield with a cross, and an axe.
